Soil and Plant Management

**BiSect is a natural broad spectrum insect deterrent.**

**It combines the beneficial insect deterring properties of several naturally occurring botanical oils including ; Neem, Clove & Garlic.**

**BiSect can be used as a foliar spray where it will provide a physical barrier to leaf sucking insects or it can be incorporated into the soil to deter root feeders.**

Directions for use :

- If using Soil & Plant Tonic, follow Tonic applications (by approx one week).
- Store in a cool place away from direct sunlight.
- Keep lid firmly closed after each use.
- Avoid contact with eyes, if swallowed seek medical advice.
- Keep away from children and animals.
- **BiSect** may be incompatible with some agriculture chemicals & fertilizers. It is advised that a jar test be done before mixing with other products. When using with other materials always add to tank last
- Spray early morning or late afternoon out of the heat of the day.
- Test spray on young plants first.
- Avoid spraying during flowering as this may interfere pollinators
- Avoid contaminating ponds (Toxic to fish)
