

LiquidFish

Natural Fish Fertilizer

Soilsmart

Soil and Plant Management

Liquid Fish is manufactured using a unique process to retain the natural nutrients making them immediately available to the plant.

Liquid Fish is a concentrated biological stimulant which will revitalise soils and re-invigorate the root systems of most plants.

Liquid Fish is an organic product that will also help relieve stress in plants.

Liquid Fish :

- Supplies natural nutrients which are immediately available to the plant
- Promotes beneficial microbial activity
- Has natural chelating properties
- Less leaching compared to chemical fertilizers
- Promotes healthier plants with increased resistance to disease
