

# Soil & Plant Tonic

## Biological Inoculant

**Soil & Plant Tonic** provides a preventative approach to managing soil & plant diseases by improving the number, diversity and balance of beneficial soil organisms. This increase in beneficial microbes provides an increased level of competition for pathogens, reducing their ability to become infective, it also leads to better soil balance and increased competition for pests such as Nematodes and other root feeding organisms.

Sandy Soil	Loamy Soil	Clay Soil	Garden beds & Pots	Home lawns
100L/ha Monthly	60L/ha Monthly	60L/ha Bi-Monthly	10ml/1L water Monthly	0.5—1L Per 100m2 Every 3 months
<b>Apply as a drench</b>				

Directions for use : **Soil & Plant Tonic** contains a diversity of beneficial living soil organisms used for the inoculation of the soil and plant leaf surfaces, the efficacy of these microbes can be maximized using a few simple guidelines.
