

# SoilSafe Granular Rock Phosphate

## Soilsmart

Soil and Plant Management

**SoilSafe Granular Rock Phosphate** is a colloidal calcium phosphate (Rock Phosphate) which provides long term phosphorus availability in the soil profile.

**SoilSafe Granular Rock Phosphate** provides a long term source of phosphorus, calcium, silica and a range of trace elements. In contrast to manufactured phosphate fertilizers, colloidal calcium phosphate **WILL NOT LOCK UP AND BECOME UNAVAILABLE.**

Phosphorus is an extremely important element which is needed at the growing tips of plant shoots and roots, it is extremely important to have adequate levels available for young, actively growing plants or to aid in the recovery following renovation or periods of stress.

Turf
Average particle size 2 - 4mm
Refer to Soil analysis results for application rates

N	P	K	Ca	Mg	S	Si	C
0.2%	11.2%	1.0%	21.5%	0.76%	1.6%	23%	3 ppm

Directions for use :

- Store in a cool place away from direct sunlight
- Keep lid firmly closed after each use
- Avoid contact with eyes, if swallowed seek medical advice
